Communities & Organisations : Growth & Support

Residents' Action in the Community

This conference will look at how tenants and residents can really make things happen in their communities. We will discuss the opportunities and the challenges and give you the latest information about what support is available and what is happening nationally.

There will be workshops with inspiring examples of community action and discussions about what we want our communities to feel like and what difference we can make.

Above all this is a practical conference looking at what we can achieve and setting out a plan of action.
